

Help Tom Burnett Sr. stop the re-hijacking of Flight 93: Rally Saturday at the Courthouse

Every particle of the original Crescent of Embrace design (right) remains completely intact in the Circle of Embrace redesign.

Uproar over the crescent and star configuration of the original design forced the Park Service to promise to eliminate the Islamic symbol shapes, but they never did. Architect Paul Murdoch described his original Crescent of Embrace as a broken circle. The Park Service own website still describes the redesign as a broken circle:

“...the circle is symbolically ‘broken’ or missing trees in two places.”

The unbroken part of the circle (the crescent) remains exactly as it was. It is still an Islamic shaped crescent, still pointing almost exactly at Mecca. All they did was add an additional arc of trees that explicitly represents a broken off part of the circle.

Which raises an obvious question.

Who broke the circle?

It can only be the terrorists. The circle is a symbol of peace, and it is the terrorists who broke the peace on 9/11. Thus the planned memorial depicts the terrorists as breaking our peaceful circle turning it into a giant Mecca-oriented crescent. A clearer depiction of al Qaeda victory is hard to imagine.

Can anyone really be surprised? Just look at that bare naked crescent and star flag. An architect CAN'T plant an Islamic flag on the handiwork of Islamic terrorists by mistake. This isn't like an airplane flying off course and possibly hitting the first Trade Tower by accident. This is Murdoch's BLUEPRINT. It is precisely what he meant to do.

When a second airplane flew into the Trade Center, everyone knew the nation was under attack, but the Park Service doesn't care how many airplanes Paul Murdoch flies into the Flight 93 memorial. The crescent points to Mecca? Must be a coincidence. A crescent that Muslims face into to face Mecca is the central feature of a mosque? Must be a coincidence.

They refuse to even admit that there is another Islamic shaped crescent in the memorial design, projected against the sky by the top of the 93 foot tall Tower of Voices. (See the image to the right.) This Islamic symbol shape invites an Islamic interpretation, and again the logical interpretation is horrific.

10AM-1PM

Public meeting of the Memorial Project at the Somerset County Courthouse Saturday morning. Come early if you want to sign up to speak during the public comment period at the end.

1-2PM

Press conference, hosted by Tom Burnett Sr. (father of murdered hero Tom Jr.) and Alec Rawls (author of this advertisement).
Joining us will be Diane Gramley (President of the American Family Association of Pennsylvania), and Reverend Ron McCrae.

2-5PM

Rally outside the Courthouse. Mr. Burnett and the other press conference panelists will all address the rally. We will have further information on display. Attendees can voice their own remarks, or put to me whatever questions they have, either at the microphone or in simple conversation. Skeptics welcome!

10-12 Sunday

Anyone who wants can meet out at the crash site Sunday morning. The Svonavecs have graciously given permission for people to use the lower parking lot area, a couple hundred yards closer to the crash site than the old Temporary Memorial. Just tell the Svonavecs' security people that you are responding to this invitation. Non Flight 93 family members, please stay in the semi-paved area.

40 condemned souls

The minaret-like Tower of Voices is formed in the shape of an Islamic crescent and is cut at an angle at the top so that its crescent arms reach up into the sky. (Crescent topped minarets are a common mosque element in many Islamic countries.)

Literally dangling down below these symbolic Islamic heavens are 40 wind chimes, representing the lives of our 40 heroes. In Islam, there is only Heaven and Hell. To be dangling down below the symbolic Islamic heavens is to be symbolically damned.

The Memorial Project refuses to witness this Islamic crescent, soaring in the sky above our symbolized heroes. Nobody blames the families. They want to heal from the evil that visited their loved ones. They don't want to have to witness it and fight it themselves. But willful blindness does not bring healing. It brings the enemy to our throats.

Flight 93 is supposed to be the symbol of our woken vigilance, but the Memorial Project insists that even the possibility of a hijacking is just too outlandish to even consider, no matter how overwhelming the evidence. That leaves it to the rest of us to tackle the hijacker.
